Reports to:	Production Group Leader
Closed:	Open Until Suitable Candidate Found

---

### COMPANY OVERVIEW:

Dynamic Source Manufacturing Inc. (DSM) is an electronics manufacturing services provider headquartered in Calgary, Canada. In business since 2000, our success is a direct result of providing our customers with responsive and flexible, customized manufacturing solutions. Our long term relationships with our customers in the Communications, Industrial, Medical, Energy and Military sectors are testament to this partnership. DSM maintains ISO9001 and ISO13485 certifications and holds a Controlled Goods certification by the Canadian Government for military applications.

### THE OPPORTUNITY:

The Mechanical Assembler has excellent mechanical dexterity. This individual has the ability to perform assembly tasks that require refined fine motor skills and the ability to interpret assembly work instructions. This candidate will have considerable initiative to multi-task in a fast paced work environment and possess the basic qualifications outlined below.

### RESPONSIBILITIES:

- Assemble electronic mechanical devices with the aid of small power tools
- Mount assembled components, such as transformers, resistors, transistors, capacitors, integrated circuits, and sockets on Printed Wiring Board (PCB)
- Read job orders, production drawings, schematics and work instructions to perform assigned work
- Install finished assemblies or subassemblies in cases and cabinets
- Connect components and parts using soldering and other bonding techniques
- Perform intermediate assembly tasks, such as potting, encapsulating, sanding, cleaning, epoxy bonding, curing, stamping, etching, impregnating, and color-coding parts and assemblies
- Perform online go-no-go testing and inspection to ensure parts and assemblies meet production standards and requirements
- Use equipment such as depanelizers, hot air pencils, solder pots, BGA rework station, press fit, and X-Ray equipment to process products
- Perform other duties as required

### QUALIFICATIONS:

- 1 – 2 years previous related experience and/or training
- Familiar with IPC standards and skilled working on Class 2 or Class 3 products
- Ability to write simple correspondence and verbally present information in one-on-one and small group situations to other employees of the organization
- Strong drive and motivation to achieve success
- Ability to perform repetitive tasks with speed and accuracy
- Ability to work well independently and as part of a team
- Availability for rotating shift work (days, afternoons)

- Availability for overtime (evenings and weekends)
- Must be able to successfully pass a background check

#### **WHAT WE OFFER:**

- Competitive compensation package
- Clean and safe working environment
- Challenging and rewarding work
- Development and training opportunities for growth
- Casual work environment

If you possess the above qualifications and are looking for a new opportunity to advance your career within a successful and growing organization, we want to hear from you.

#### **HOW TO APPLY:**

Please submit your resume and cover letter, clearly quoting **Mechanical Assembler** in the subject line to:
